

XL30

Amplified Telephone

Designed for persons with moderate hearing loss and low volume speech. Ideal for home and office use.

Features

Powerful adjustable amplifier provides up to 30dB of incoming voice amplification

Adjustable incoming and outgoing volume control lets you select the loudness to suit your hearing

Adjustable tone control (600-2400Hz) lets you adjust the frequency of the incoming voice so that even similar-sounding words, such as “chair” and “share”, are crystal clear and easy to understand

Adjustable outgoing voice amplification up to 15dB so callers can hear you better

3.5mm audio output jack for connection to headset, neckloop, cochlear implant and other assistive listening devices

Hearing aid T-coil compatible handset

XL30

Amplified Telephone

Features (continued)

Extra-bright ring flasher and extra-loud ringer (85+ dB) with adjustable ring volume and tone controls let you know when your phone is ringing.

Amplification set switches allow the user to select either incoming (up to 30dB) or outgoing (up to 15dB) amplification.

Outgoing amplifier control switch sets the amplifier to OFF or ON

Advanced digital electronics design minimizes background noise and further enhances speech clarity so that all words can be heard clearly

Large keypad buttons with high-contrast graphics make dialing easy

Twelve (12) memory buttons hold up to 15 digits each for one-touch speed dialing

Program, Redial, Hold and Flash buttons

Line powered – no AC adapter needed

Desk or wall mount

9V battery powers the extra-bright ring flasher (battery not included)

One year warranty
